

# City of Malden Complete Streets Priorities

Join us to share your ideas & knowledge

Monday, June 12 | 6:00 – 8:00 PM  
Malden Senior Center - 7 Washington Street

The City is pursuing funding from MassDOT to improve safety on Malden's streets for walkers, bikers, transit users, and those with physical disabilities. Join the City's Complete Streets Task Force, Toole Design Group, and the Metropolitan Area Planning Council to hear more about the funding program and project opportunities.

Using feedback from our first public meeting in March, we have identified a list of potential projects. On June 12, we'll present the project concepts, and you'll have the chance to share your thoughts on which projects you like best.

**We hope you can join us!**
